

The current state of healthcare digital transformation

Digital transformation in healthcare, though a reality, does not have any clear definitions. Damo Consulting's research suggests there is a set of common themes that healthcare executives refer to when discussing digital transformation. In this paper, we discuss the results of research by Damo Consulting on the current state of digital health and digital transformation, and the findings from focus group discussions with nearly 40 CIOs and senior health IT leaders who are members of the College of Health Information Management Executives (CHIME).

About Damo Consulting

Damo Consulting is a growth strategy and digital transformation advisory firm that works with healthcare enterprises and global technology companies. We help develop and implement digital transformation strategies and enable market growth strategies. We specialize in thought leadership led brand transformation and actionable healthcare market intelligence.
